

Preface

It has been a great pleasure to work with the authors of the papers in the ISPRS Archives and Annals volume. This Volume collects 7 sessions' contributions that have enriched the theme for 2015 CIPA Symposium titled "*Filling the Gaps—Towards a Globalization Era*". The authors have contributed with interesting reports on relevant and innovative research projects, which allowed us to compose an inspiring book. Our gratitude goes also to the members of the international scientific committee for their invaluable effort in reviewing and commanding these academics papers. Special thanks also to our colleagues Hung-ming Cheng, Kuo-hua Weng and shao-hua Tsai who took great responsibility in organizing the practical aspects of the CIPA2015 Symposium and make it a profound and productive event.
